

SCMTA “STACCATO NOTES”

Snow Day Teaching Suggestions!

- **Online video lessons**

- Have a copy of your students music on hand
- Email lesson assignments / goals for the week following video lesson
- Skype, FaceTime, Facebook video messenger, & What’s App are available video options!

- **Flexibility of lesson time / rescheduling to earlier in the day when it’s not icy**

- **Make up lesson group classes**

- Some teachers schedule these into their calendar in the fall, while others are adding them after this snow storm to prepare students for upcoming festivals!

- **Phone calls to set new goals**

-Some parents don’t or have an online video lesson, but may be excited to have you follow up with the students over the phone. It gives you the option to continue to set goals with students and give practice suggestions!

- **Focus on composition**

-Your students can use noteflight.com to compose and share their work with you on email prior to a phone call or video lesson!
